

UNIVERSITAT POLITÈCNICA
DE CATALUNYA

MASTER CANS (Computer Architecture, Networks and Systems)

ADMISSION LIST

1. ABREU PABÓN, CAROLINA
2. ÁLVAREZ MARTÍ, LLUC
3. CÁCERES BAYONA, ÁNGEL ORLANDO
4. JOKANOVIC, ANA
5. LANDA ANZULES, JOSÉ
6. MIRANDA BUENO, ALBERTO
7. PEDIREDLA, JAGANMOHAN
8. ROMERO OLARTE, IVONNE MILENA
9. TORRES MORALES, ÁLVARO
10. VILA VECILLA, ALBERT

REGISTRATION PROCESS

Registration will take place on 14th February at 17:00 hours.

Address:

Underground floor, Aulari A-5, Campus Nord

Map:

http://www.upc.es/catala/la-upc/planols/pdfs/arribar_campusnordisud.pdf

Important: before 8th February you must deliver at the Administration of the Department of Computer Architecture (Campus Nord, D6 building, room 218) the form "course registration form" signed by your Advisor or by the Master Responsible. The form is available at:

<http://docencia.ac.upc.edu/master/Matricula-Master-CANS.pdf>

INFORMATION ABOUT THE REGISTRATION PROCESS

The documentation that needs to be demonstrated will depend on the institution where the degree has been obtained or the previous studies that have been completed that entitle the applicant to enter the official master's degree course:

Qualifications completed in centers that are part of the UPC

- *Curriculum Vitae*
- If the applicant holds other qualifications related to the subject area of the official master's degree course applied for and that are different from those given to meet entrance requirements, it is necessary to include the original certificates and copies (or official copies) with the application.

Qualifications completed in centres cooperating with the UPC or any other Spanish national university. In addition to previously detailed documents, it is necessary to provide

- Photocopy of DNI, NIE or passport.
- Original and photocopy (or official copy) of the certificate that entitles the applicant to start the official master's program or proof of payment for the certificate.
- Original and photocopy (or official copy) of a certificate issued by the institution that awarded the qualification detailing each subject studied. The certificate must include information about the number of hours/ credits studied and grade for each subject. This certificate must also include the global average obtained by the student.

- Any other documentation required to enter a particular official master's degree course.

Qualifications completed in foreign universities or institutions of higher education

- Photocopy of DNI, NIE or passport.
- Original and photocopy (or official copy) of the homologation of the qualification that entitles the applicant to enter the official master's degree program.
- If the title has not been homologated, is necessary to provide the original and a photocopy of the certificate (or official copy) that was awarded either by the university or institution where the title was obtained or by the education authority of the country to which the university belongs. This document must confirm that the duration of the degree was at least three years and that is it a valid precursor to studies at postgraduate level (master's degree) in that country. If that is not possible, it must indicate the level of higher education that the degree gives access to in the country where it was awarded.
- Original and photocopy (or official copy) of a certificate from the institution that awarded the degree detailing each subject that has been studied. The certificate must detail the number of hours and credits studied and must include the grade awarded for each subject. This certificate also must contain information on the mark scheme and how grades are awarded.

If the applicant holds other qualifications related to the subject area of the official master's degree course applied for and that are different from those given to meet entrance requirements, it is necessary to include the original certificates and copy (or official copy) with the application.

Important. All documents issued in countries that do not belong to the European Union must be stamped and legalised by the appropriate government department.

After the validity of the necessary documentation has been checked, registration for the particular course can continue. Once the applicable registration fees have been paid, the registration process is complete and the applicant is a student of the official master's degree program of the UPC.
